Completion: 2009

Class "A" Office Spaces

Megapark offers a unique combination of class "A" office space, a 4-star business hotel and extended shopping areas located on one of the most important boulevards of Sofia. It is the first business complex that offers its tenants generous and efficient space in a very attractive location. Greatest attention was paid to the interior design. The floor areas of 4,000 sqm allow great flexibility in space configuration and the natural light through the sun protected glass front creates a pleasant working atmosphere. Our Partner B+M Marsil who was awarded the contract was able to finish the installation of 35,000 sqm on schedule.
